**The RockShop - <http://scissorspaperrock.herokuapp.com>**

**Full Stack | Scrum Master |**

**2016**

An online multiplayer game of rock, paper, scissors that allows users to log in via facebook, chat and view statistics.

- Implemented client side facebook authentication using Facebook SDK integration.
- Manipulated and displayed data from Facebook's Graph Api using React and React-Router.
- Utilized SQL, Knex and Express to store profile images in a database and display while users are in a game.
- Used CSS to format and style the application to optimize user experience.

**Drink Local - <https://github.com/striking-lunatics/buzzFinder>**

**Full Stack | Scrum Master |**

**2016**

An online web application used to locate and view breweries by city or current location.

- Implemented local authentication with React, Knex, Express and SQL to save user information.
- Resolved numerous merge conflicts and held team members to a high standard of Git workflow.
- Created a loading animation using CSS and Sass.

## Experience

---

**Service Industry**

**Server - Valet | 2012 -**

**2016**

- No idea what to put here ideas??????????? hELELELELELELELEPPPP

-

## Education

---

**MakerSquare** **Austin, TX |**  
**2016**  
Advanced Software Engineering Immersive  
**Texas State University** **San Marcos, TX |**  
**2014**  
Marketing  
**Austin Community College** **Austin, TX |**  
**2012**  
Music

## Personal

---

I once escaped the jaws of a grizzly by diving into an old Volkswagen bus. I'm a music making machine and I crave creation.
